

SUSWOT MEETING

7:30pm, 27th February 2014, Post Office Tavern

PRESENT

Alex Dunn, Mike Crabbe, Phil Crabbe, Fran Bragg, Tim Bushell, Richard Bennett

Apologies

Myra Jones, Jill Kempshall, Hattie Lupton,

COMING UP

Green Capital 2015

Alistair Watson is encouraging us to do something about the Green Capital

- Worms
- Planting something
- Make another garden if site could be found
- Other areas
 - Energy ideas, insulation
 - Food ideas

Worms

Alex has one, Jane Stephenson has one, Steve Tainton wants one.

This is connected with waste – Jane Stephenson with a ph.

Mike has made a list of questions that we would like our volunteers to explore and feed back on.

Schools and other institutions have lots of waste food, need an outlet for the compost.

Trial (4 people) > Westbury pilot (10) > council, institutional wormeries, schools, old people's homes ...

- > WoT worms (allotments, food establishments – what do they do now?)
- > bulk deal from manufacturers
- > build your own wormery

Westbury Fair

Sat 10 May.

CURRENT PROJECTS STATUS

Biodiversity

Biodiversity (FOBW)

Food and Cultivation

Get Growing

Suttons 1m square garden. Buy 6 plants in Mike's mixed tray, plant in your 1m square garden.

Another one has the whole sow, plant, harvest schedule for many plants.

Instructions for March market for people to take away.
